

# Established Licensed Therapist Position Available

We are currently seeking licensed mental health professionals (LCPC, LCSW, LMFT, Psy.D or Ph.D. in clinical or counseling psychology) for our Established Licensed Therapist position. Come develop a rewarding career providing excellent clinical services with opportunities to develop your skills in the area of clinical supervision, facilitating training events and engaging in innovative community-based initiatives all while working alongside a diverse team of therapists committed to quality work.

The vision of Artesian Collaborative, LLC is to change the world by changing how we relate to ourselves, our workplaces and our communities. We aim to do this by empowering our clients to harness pain and direct it towards growth that reshape lives, relationships and communities. Our goal is to think outside the box and create a company that cares for the long term health of our staff so they can bring their best into our community.

This is a W-2 position with no more than two evenings a week expected and no weekend expectations. We offer competitive compensation, retirement benefits, health insurance options, individual supervision, group supervision, consultation and team meetings.

Interested Applicants please complete this [interest form](#) and send your Curriculum Vitae to Erin Foster [erin@artesiancollaborative.com](mailto:erin@artesiancollaborative.com)

## Ideal Candidates

This is an ideal position for a licensed therapist with several years of experience who is looking for new and innovative ways of applying their clinical skills beyond just individual, couples and family therapy. We're looking for applicants who love therapy work and are interested in expanding their influence by:

- supporting the growth of emerging clinicians.
- expanding access to therapy resources to under-resourced clients.
- bringing therapeutic skills to corporate and community settings.

## Required Knowledge, Skills & Abilities

We are looking for candidates who:

- Have a masters or doctorate degree in clinical psychology, counseling psychology, clinical social work, professional counseling, couples or family therapy (PsyD, PhD, LCSW, LCPC or LMFT).
- Have been licensed in Illinois for a minimum of 2 years and able to practice independently.
- Have experience working cross-culturally, with a diversity of clients.
- Have knowledge of empirically validated and culturally informed treatments.
- Have experience leading and facilitating large and small groups.
- Have experience as a clinical supervisor of therapists.
- Have experience working with community organizations and in community based settings.
- Are excited about working with a team to create an innovative and supportive organization.

## Job Expectations

- Build a caseload of 25 clients per week with no more than two evenings a week expected.
- Willing to work in a community based setting.
- Provide clinical supervision for unlicensed therapists.
- Participate in all weekly supervisory and monthly staff meetings.
- Contribute to program and resource development projects.
- Facilitate and lead consultation and peer supervision meetings.
- Work with a team to develop community based projects and initiatives.
- Once established in our company culture and in your clinical work there will be additional opportunities for you to:
  - Apprentice with our training team to learn our model on corporate and systems consultation and learn to lead, develop and facilitate large group training events.
  - Develop, implement and support community based initiatives geared towards bringing emotional health services throughout Chicago.

## More About Who We Are

Therapists at Artesian Collaborative recognize the great privilege of walking alongside our clients on their growth journey. We are committed to providing high-quality and ethical emotional and behavioral health services. Our treatment philosophy is all about validating and recognizing the pain and obstacles in our client's lives and working with them to point towards hope, growth and change. This requires us to be open and aware of how each client's story, identity and background inform their experience and the ways that their relationship and communities impact them.

Our therapists also recognize that to do this work in a healthy and sustainable way requires openness, honesty and a commitment to personal and communal growth. We take the time to self-reflect, hone our skills both on our own and in community with one another. As Artesian Collaborative therapists we actively participate in supervision and team meetings and we all share the responsibility of bringing our insight, knowledge, questions and perspective into our team discussions. For us healthy participation is encouragement, support, accountability, bringing knowledge from research and practice along with sharing our diverse and unique perspectives and valuing the perspectives of our colleagues.

One of our core pursuits is to find creative ways to bring the resources and skills of therapy outside the walls of the clinic and are looking for team members that are interested in being innovative, thoughtful and collaborative in our pursuit to expand the ways we can serve our city. As an organization we provide diversity equity and inclusion, stress management and emotional health training services and are looking for a candidate that is interested in honing their skills in bringing the rich resources of emotional and behavioral health into the workplace and community.
