

ARTESIAN COLLABORATIVE, LLC

## ||| Established Therapist Position Available

The vision of Artesian Collaborative, LLC is to change the world by changing how we relate to ourselves, our workplaces and our communities. We aim to do this by empowering our clients to harness pain and direct it towards growth that reshape lives, relationships and communities. Our goal is to think outside the box and create a company that cares for the long-term health of our staff so they can bring their best into our community. We are currently seeking licensed mental health professionals for our Established Therapist position. Come develop a rewarding career using our proven methodologies and provide excellent clinical services with opportunities to supervise, develop innovative community-based initiatives and bring relevant value to our team.

Therapists at Artesian Collaborative recognize the great privilege of being able to walk alongside their clients and enable them to grow. To do this, our therapists commit themselves to providing high-quality and ethical emotional and behavioral health services. Our treatment philosophy is geared towards validating and recognizing the pain and obstacles in our client's lives and working with them to point them towards hope, growth and change. This includes being open and aware of how each client's story, identity and background inform their experience and the ways that their relationship and communities impact them.

Our therapists also recognize that to do this work in a healthy and sustainable way requires openness, honesty and a commitment to personal and communal growth. All of our clinical staff take the time to self-reflect, hone their skills both on their own and in community with other providers. Our supervisors actively invest in their supervisee's long-term growth and professional development. Artesian Collaborative therapists share the responsibility of bringing insight, knowledge, questions and perspective into team meetings, consultations and supervision. We see participation as encouragement, support, accountability, bringing knowledge from research and practice along with sharing our diverse and unique perspectives and valuing the perspectives of others.

One of our core pursuits is to find creative ways to bring the resources and skills of therapy outside the walls of the clinic and are looking for team members that are interested in innovating, thoughtful and collaborative ideas to support our pursuit to expand the ways we can serve our city. We currently offer Diversity, Equity and Inclusion, Emotion Regulation and Stress Management training events at nonprofits and corporations are looking for a candidate that is interested in honing their skills in bringing the rich resources of emotional and behavioral health into the workplace and community.

Established therapists will have the opportunity to develop their clinical practice through continued exploration of empirically validated and culturally competent clinical tools; support and training to supervise according to our model; foster their professional development and acquisition of skills needed for program development and collaboration with our community and corporate partners.
